

Biography of Dr. Luyi Sun

Dr. Luyi Sun is a Castleman Professor in Engineering Innovation in the Department of Chemical and Biomolecular Engineering, and the director of the Polymer Program at the University of Connecticut. His current research focuses on the design and synthesis of nano-structured multifunctional hybrids for various applications. Dr. Sun has published more than one hundred fifty (150) peer-reviewed journal articles. He is the inventor/co-inventor of forty (40) international and US patents/patent applications. Many of his patents have been licensed or commercialized. The scientific results by Dr. Sun's group have been reported by major media including *Chemical & Engineering News* of the American Chemical Society, *Plastics Engineering* magazine of the Society of Plastics Engineers (SPE), *New Scientist*, *Smithsonian Magazine*, Yahoo, MSN, etc. Dr. Sun is a Fellow of the Society of Plastics Engineers (SPE) and a Fellow of the Royal Society of Chemistry (RSC).
