

Wen-Chin Chen (陳文勤)

Assistant project manager 專案副理

E-One Moli Energy R&D 能元科技研發處

Experiences

- **Assistant projector manager (2021-present)**
Materials development for lithium ion power cell
- **Senior scientist in Molicel (2019-2021)**
Cathode material development for lithium ion power cell
- **Section Manager in Foxconn Electronics Inc (2017 - 2019)**
Development of material science and 3D forming technique of cover glass for smart phone in china
- **Senior Engineer in Foxconn Electronics Inc (2015 - 2017)**
Developer with high energy density Li-ion battery (>730 Wh/L) for consumer electronics

Education

- **Ph.D in Chemical Engineering, National Taiwan University. (2014.06)**
Synthesis and Characterization of High-capacity Li-rich Nickel Manganese Oxide Cathode for Lithium-ion Batteries
Advisor: Nae-Lih Wu (吳乃立教授)
- **M.S in Chemical Engineering, National Taiwan University. (2010.06)**
Synthesis and Characterization of High tap-density LiFePO₄ Cathode Material for Lithium Ion Batteries
Advisor: Nae-Lih Wu (吳乃立教授)
- **B.S. in Chemical Engineering, National Chung Cheng University. (2008.06)**
