

# Curriculum Vitae of Dr. Yuichi Kamiya

## Present position

Professor, Section of Materials Science, Faculty of Environmental Earth Science, Hokkaido University, Japan

## Education

March, 1997 M. Eng., Nagoya University, Nagoya, Japan (*graduated*)

March, 1995 B. Eng., Nagoya University, Nagoya, Japan (*graduated*)

## Academic Degree

March 2003 Doctor of Engineering (Nagoya University)

## Professional Career

April, 1997 Researcher, Tonen Chemical Co. Ltd

January, 2002 Research fellow, Japan Science and Technology Agency

March, 2003 Associate Professor, Faculty of Environmental Earth Science, Hokkaido University

April, 2015 Professor, Faculty of Environmental Earth Science, Hokkaido University

## Academic Awards

- Young Scientist Prize of the International Association of Catalysis Societies, 13th the International Congress on Catalysis (2004).
- The Japan Petroleum Institute Award for Encouragement of Research and Development, (2008).

## Achievements

85 original papers, 2 review articles, and 25 patents.

## Research Interest and Research Topics

- Catalytic chemistry and catalytic engineering for water purification.
- Design of heterogeneous catalysts based on regular assembly of well-defined metal and metal oxide clusters.
